INDEPENDENT AUDITORS' REPORT

To the Board of Directors
1000 Friends of Florida, Inc.
Tallahassee, Florida

We have audited the accompanying financial statements of 1000 Friends of Florida, Inc. (a Florida non-profit organization), which comprise the statements of financial position as of December 31, 2013 and 2012, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of 1000 Friends of Florida, Inc. as of December 31, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

1000 FRIENDS OF FLORIDA, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization - 1000 Friends of Florida, Inc. (“the Organization”) was incorporated as a not-for-profit corporation in 1986 in the State of Florida. The Organization receives grants and contributions for the purpose of assuring that Florida's growth management laws are effectively implemented in an effort to maintain and improve Florida's quality of life, natural environment, and vibrant communities.

Investments - Investments in marketable equity securities with readily determined fair values are stated at fair market value. Unrealized gains and losses are included in the change in net assets in the accompanying Statement of Activities.

Property, Equipment and Depreciation - Office equipment, furniture and fixtures are recorded at cost. Donated property is recorded at fair value at the date of gift. Depreciation is computed based on the straight-line method over a period of five to seven years.

Restricted and Unrestricted Revenue and Support - Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

Support that is restricted by the donor is reported as an increase in unrestricted net assets if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Income Taxes - The Organization is exempt from income taxes on income from related activities under Section 501(c)(3) of the U.S. Internal Revenue Code and corresponding state tax law. Accordingly, no provision has been made for federal or state income taxes.

U.S. GAAP requires that a tax position is recognized as a benefit only if it is “more likely than not” that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the “more likely than not” test, no tax benefit is recorded.

Due to its tax-exempt status, the Organization is not subject to U.S. federal income tax or state income tax. The Organization’s Form 990 has not been subject to examination by the Internal

Revenue Service or the state of Florida for the last three years. The Organization does not expect the total amount of unrecognized tax benefits to significantly change in the next 12 months. The Organization recognizes interest and/or penalties related to income tax matters in income tax expense. The Organization did not have any amounts accrued for interest and penalties at December 31, 2013.

Statement of Cash Flows - For the purpose of the statement of cash flows, the Organization considers all checking accounts, money market accounts, and highly liquid investments with an original maturity of three months or less to be cash equivalents.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events - In preparing these financial statements, the organization has evaluated events and transactions for potential recognition or disclosure through August 20, 2014, the date the financial statements were available to be issued.
