

## 2024 Florida Legislative Funding Priorities

Provide at least \$1 billion for Florida Forever, Rural & Family Lands, Florida Communities Trust and other programs to protect priority lands in the Florida Wildlife Corridor and other natural and agricultural areas.

Honor lawmakers' pledge to restrict spending from the state's housing trust funds for that purpose, and to invest an additional \$150 million annually to expand affordable housing.

Enact state tax credits for rehabilitating historic structures, fully fund the FY 2024-2025 Historic Preservation Grant list, and provide additional support for Florida Main Street and other critical programs.

Meet or exceed the next funding installment in the Governor's four-year, \$3.5 billion commitment to Everglades restoration and water quality projects across the state.

*Founded in 1986, 1000 Friends of Florida is our state's leading nonprofit, nonpartisan advocate for environmentally and fiscally sustainable planning*

## 2024 Florida Legislative Policy Priorities

Support legislation and funding for fiscally responsible land-use planning that enhances resilience, prioritizes home rule, empowers citizens, reduces emissions and promotes sustainable, equitable communities.

Strengthen water quality protections and enforcement, and promote incentives for water conservation.

Require flood disclosure and other safeguards to discourage irresponsible development in coastal high hazard areas and floodplains to save lives, property and taxpayer dollars.

Create stronger protections from incompatible development, and ensure that new development occurs in areas with the infrastructure to support it.
